User Manual for Supplier

New supplier onboarding process in CBX

New factory creation process in CBX

A. Overview

Master data management for OI involves consolidating critical business data to create a single accurate source of information for ***operational use*** and ***support strategic decision*** making as needed.

Current Context

1. **Incorrect Supplier/Factory Master Data** – Wrong or incomplete data in Oi blocks suppliers from managing orders and inspections.
2. **Insufficient Data for Supplier Evaluation** – Oi lacks qualified, reliable data to assess supplier capability and performance.
3. **Integration & Data Consistency Issues**– Duplicate or inconsistent supplier/factory records across systems make integration and operations difficult.

- Vendor Portal
- CBX
- many more

Goal

MDM

Master Data Management ensures suppliers have **accurate, consistent, and centralized information (Supplier & Factory), reducing delays in order processing and inspections in one single system** - CBX

Copyright © 2025 TradeBeyond Limited

A. Overview

Starting from late October 2025, several key functions of the Vendor Portal (VP) **will be migrated to CBX**, including:

- Supplier Registration
- Supplier Profile Creation and Maintenance

At the same time, more essential functions will **remain unchanged** on the Vendor Portal, such as Reminder, News, Updates, Library, Application, E-Sign, SCT, EAN Upload, Scope Certification Upload, Guidelines, and Compliance links, etc…

Copyright © 2025 TradeBeyond Limited

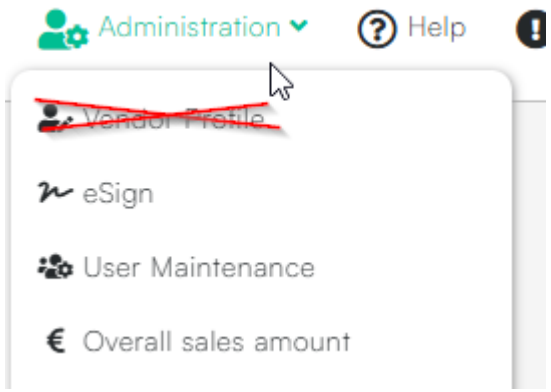
B. VP Functions Changed (Migrated to CBX)

1. Supplier Registration

The registration of new vendors is no longer conducted through the **Vendor Portal (VP)**. Going forward, all new vendor registrations will be managed on the **CBX platform**. Accordingly, the button for new vendor registration has been removed from the VP homepage and **replaced with a link to download the guideline**.

2. Vendor Profile

The Vendor Profile menu will no longer be available on the Vendor Portal (VP). All vendor profile creation, updates, and maintenance are now handled exclusively in CBX.



Copyright © 2025 TradeBeyond Limited

C. Functions Remaining in Vendor Portal

Apart from the functions listed under Section B, all the remaining functions below will remain available on the Vendor Portal and should continue to be used in accordance with the user guide previously shared by OI to suppliers

1. Scope Certificate Upload
2. SCT (Transparency)
3. Library
4. Guidelines / News / Updates / Reminder → remain active in VP.
5. Application (form/template download).
6. Attention > Whistleblowing, Compliance , Gift Directive → still viewable and downloadable.
7. User Manual / Tutorial / Template
8. EAN Upload
9. Overall sale amount / Self-Application Request
10. User Maintenance
11. E-sign

Factory Creation & Maintenance →

D. Guideline for new processes in CBX

- URL : https://oi.tradebeyond.com/

- As an OI Supplier you can:
  - Register as supplier in the system
  - Submit your profile for approval
  - Maintain/Update your own profile
  - Upload any document
  - Create your own Factory
  - Create relationship between supplier and factory profile

FYI1: As a supplier you can view/edit only your profile
FYI2: As a supplier you can view/edit specific information of only your factory

Next Step for Supplier

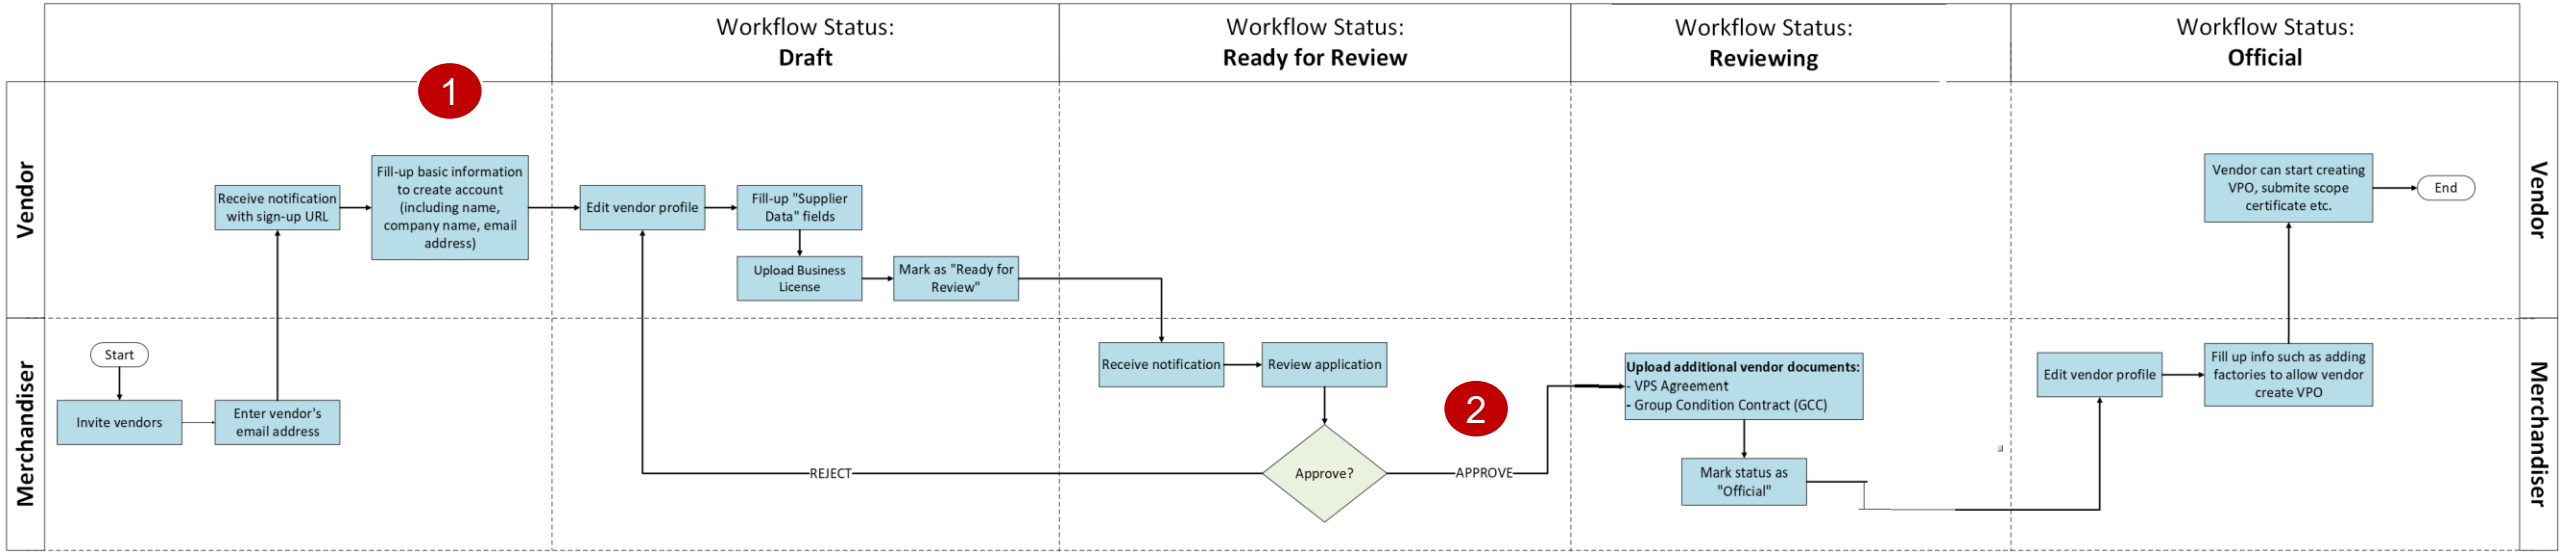
Golive date: Oct 27, 2025

1. **If you already have access to CBX –** Please login to CBX (Home - CBX Cloud) and maintain your supplier/factory profiles
2. **If you don't have access to CBX and would like to access to maintain your profile** – Please contact your merchandiser and perform steps in guideline that Oi provides

For any issues you encounter while using CBX or Vendor Portal, please contact Oi via email at: **Helpdesk@ottoint.com**

Copyright © 2025 TradeBeyond Limited

Flowchart



Notes:

1. OI will enable AAD for suppliers before inviting them on CBX, afterwards suppliers will be using SSO to login to CBX.
2. When Merchandiser approves the application, system automatically changes the application's status to "Reviewing".

Registration – Receive Invitation

Steps

1. Merchandiser initiates access package request for supplier

-> **Supplier receives an email notification with helpdesk ticket**

2. Merchandiser Invites Supplier for registration in CBX

-> **Supplier receives email notification with CBX sign-up URL attached, along with AAD link**

Oi CBX new vendor account request (HELP-52994)

helpdesk@ottoint.com <Helpdesk@ottoint.com>
to me

Fri, Sep 19, 10:49 AM

1

Dear Kim Tran,

We would like to inform you that our merchandiser has initiated your access to CBX platform (Supply Chain platform for Oi) by submitting your email for registration.

Within 1–2 business days, you will receive an email from the CBX system with instructions to complete the onboarding process. This will include both the Microsoft access package link and the registration link. When requesting the Microsoft access package, please enter the ticket number **[**HELP-52994**]** from this email in the *Business Justification* section.

If you do not receive the CBX email within this timeframe, please contact our merchandiser for assistance.

Should you have any questions or require further support, feel free to contact us at: helpdesk@ottoint.com.

Thank you for using our service!

Best Regards,

Otto International - SCS Helpdesk Team

Dear 189 company test

Thank you for your recent application to register as a supplier with 189 company test 1

We regret to inform you that your application has not been approved because of **Change address**

If you wish to reapply, please access your profile in our system via[Link to CBX supplier profile], make the necessary updates, and mark it as "Ready for Review" to resubmit.

If the rejection reason is unclear, please feel free to reach out to the OI merchandiser for clarification.

Thank you for your cooperation.

Factory Profile Creation

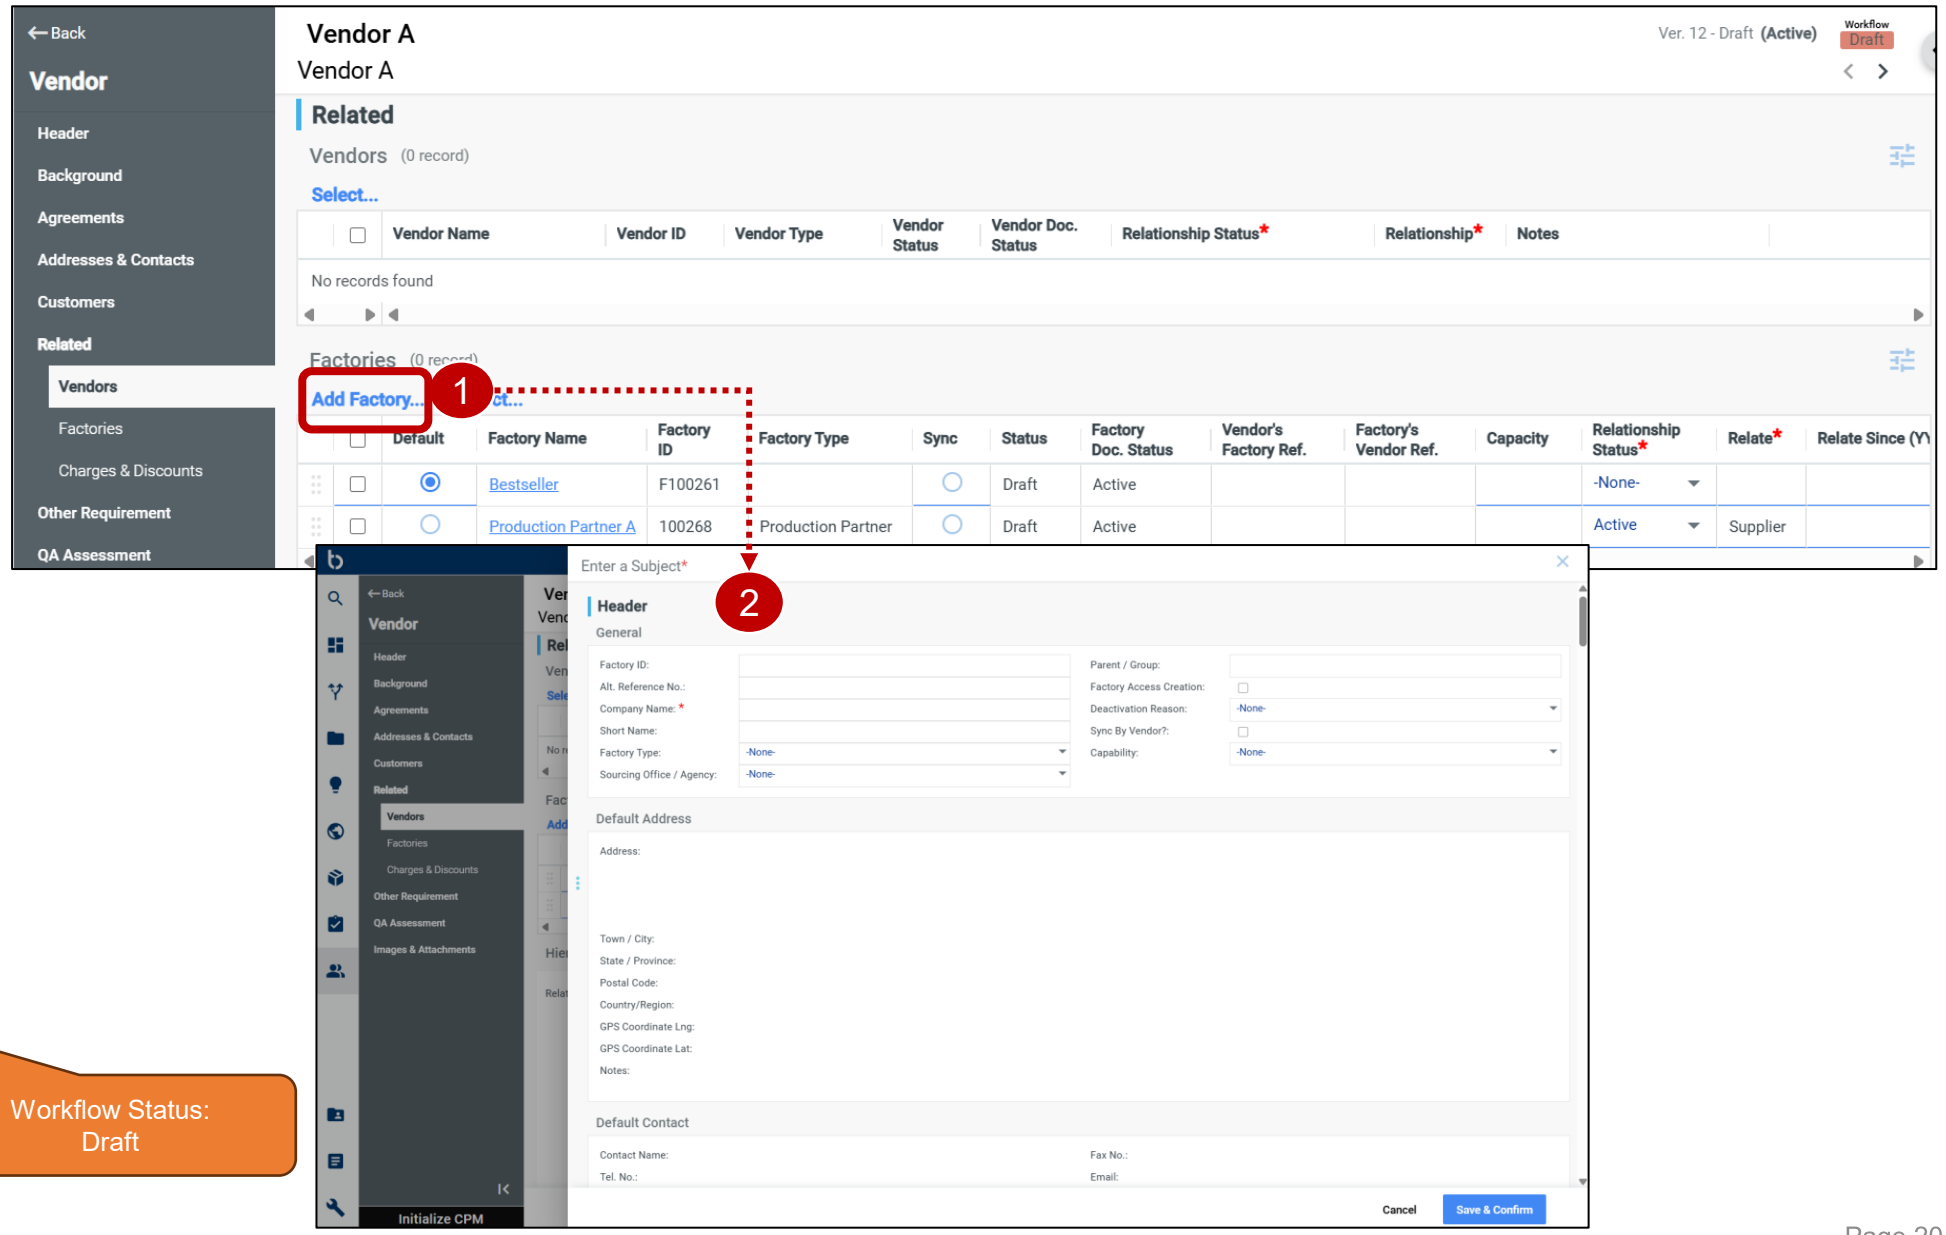
Steps

- ❑ Contact your designated Merchandiser at OI before creating a factory profile.
- ❑ If the factory already exists, the Merchandiser will establish the vendor–factory relationship in CBX
- ❑ If the factory does not exist in the system, the supplier must create the factory profile.

Steps

1. Go to "Partners > Vendors" module, then click own vendor profile for "Related > Factories > "**Add Factory**" to create a factory profile.
2. A created form will be displayed at the right panel, then fill up all the mandatory fields.

Workflow Status: Draft



Copyright © 2025 TradeBeyond Limited

Factory Profile Creation

Steps

❖ **Update Risk Classification**

1. Input **Country** in **Address** section
2. Go to **Other Requirement** section > Click on "**Apply default**" button
3. Supplier fills in new data fields that are displayed based on the risk classification in the ***Content*** column.
